FAMOUS QUESTION REVIVED

Federal Court Will Decide Whether Congress Legally Returned the County to Virginia.

Interest in whether Alexandria county is part of the State of Virginia or of AND AROUND the District of Columbia has been revived through the prosecution of pool-

The cases are now before Judge Wadthe eastern district of Virginia. His decision tomorrow may mean the opening of this celebrated question.

Ten years ago the jurisdiction of

Alexandria county was questioned. The case was taken before the United States Supreme Court by R. A. Phillips, a well-known capitalist and real estate owner of Alexandria county, with of-

owner of Alexandria county, with offices in Washington.

The court decided that the issue was
one wholly between the United States
and the State of Virginia and that a
private citizen was not qualified to
bring it up for disposition.

Since that decision, which falled to
settle the status of the county, the
case has been at a standstill and is so
now. There are residents of Alexan.

now. There are residents of Alexandria county who now are inclined to believe that with the agitation attending the poolroom cases the retroces-sion of the county will again come up for serious discussion.

Return of County.

the proclamation of President Washington, Alexandria county was part of the "ten mile square" allotted as the seat of the Federal Government. In 1846, Congress voted to re-trocede to Virginia "that portion of the ten mile square south of the Poto-

has been contended by eminent yers that if Congress had that yer in 1846, it has the power today power in 1846, it has the power total, to retrocede to Maryland that portion which is known as the District of Columbia. They argue further that it then has the power to change the seat of Government to Bladensburg, Jack-

son City, or even to Hawaii.

It is not understood that Congress ever had the power to cede away any part of the "ten-mile square" defined as the limits of the District of Columbia in President Washington's proclamation.

The activity of Mr. Phillips and others is ascribed to the lax methods which now obtain in the government of the county and the benefits to be derived from its restoration to the District.

Would Benefit Town.

The county would have the benefit of good-roads law, the revenues from Government property, such as Arlington, the three Government bridges, and other property would revert to the District, and citizens of what is now Alexandria county would have the pro-tection of a police system and the benefits of sanitary laws which are not now

in force in the county.

L. E. Phillips, the Washington attorney, a son of R. A. Phillips, said yesterday that there is practically no samitation in the county, the police facilitation in the county, the methods of ties are poor, and that the methods of erning the county are much in line for impovement. Should the court decide that Alexandria county is legally within the District line it would mean practically a general revision of affairs there, and one which would not only mean benefits to the people of the county, but to the county itself, and to the District of Columbia.

the act of retrocession was wholly ultra tives.

"In my opinion Congress had less right to relinquish or transfer its exclusive jurisdiction over part of the seat of Federal Government than it would have to cede away or relinquish its legislative power over postoffices and postroads.

"Of course, we all know the Constitution has become a mere political footbail in these modern days. We find our Federal Government in the canal-digging business in foreign territory, and in the missionary business in Asiatic islands, and it is refreshing to observe occasionally a recurrence to safe prin-

GOING TO BED HUNGRY.

It Is All Wrong and Man Is the Only Creature That Does It.

he complete emptiness, of the stomach during sleep adds greatly to the amount of emaciation, sleeplessness and general weakness so often met with. There is a perpetual change of tissues in the body, sleeping or waking, and the supply of hment ought to be somewhat continuous and food taken just before retiring adds more tissue than is destroyed and increased weight and vigor is the result. Dr. W. T. Cathell says: "All animals except man eat before sleep

and there is no reason in Nature why man should form the exception to the rule."

If people who are thin, nervous and man should form the exception to the rule."

If people who are thin, nervous and sleepless would take a light lunch of bread and milk or oatmeal and cream and at the same time take a safe, harmless stomach remedy like Stuart's Dyspepsia. Tablets in order to aid the stomach in digesting it, the result would be a surprising increase in weight, strength and general vigor. The only drawback has been than thin, nervous, dyspeptic people cannot digest and assimilate wholesome food at night or any other time. For such it is absolutely necessary to use Stuart's Dyspepsia Tablets, because they will digest the food, no matter how weak the stomach may be, nourleshing the body and resting the stomach at the same time.

Dr. Stevenson says: "I depend almost entirely upon Stuart's Dyspepsia Tablets in treating indigestion, because it is not a quack nostrum, and I know just what they contain, a combination of vegetable essences, pure pepsin. They cure dyspepsia and stomach troubles, because they will digest the food, no matter how weak the stomach may be, nourleshing the body and resting the stomach at the same time.

Dr. Stevenson says: "I depend almost entirely upon Stuart's Dyspepsia Tablets are sold by druggists everywhere at 50 cents per package. They are in lozenge form, pleasant to take, and contain nothing but pure pepsin, vegetable essences and bismuth, scientifically compounded. Your druggist will tell you they give universal satisfaction.

It is a striking coincidence that the provision of the Constitution vio-lated by dismembering the seat of government and the appropriate procedure for the determination of such infrac-tions of the fundamental law are in close proximity. When, in the course of events, it may appear necessary to remove it permanently to a new location, such a proposal must first be sub-mitted to all the States; and with the

approval of three-fourths it will become lawful. "As for the individual citizens respect-

Titles Would Stand.

Another matter which seems to have that, should the county again come into the jurisdiction of the District, titles to lands and decisions given in many law cases would in no manner be affect-Mr. Phillips said yesterday that

ed. Mr. Phillips said yesterday that many people seem to believe that all court decisions which have been given since Congress ceded the county to Virginia would be upset.

This, he says, is not the case, any more than in Porto Rico, for instance, when the Americans took hold. Previous finds were valid, and the new Government just continued them, but under its own laws. Such would be the case should Alexandria county come again into the District.

New Phase Brought Up.

A letter from Mr. Phillips' father to Attorney John A. Lamb, counsel for the two poolroom men who are now under arrest, is interesting in that it presents a phase of the matter which has not been brought prominently before the public.

The letter reads as follows:

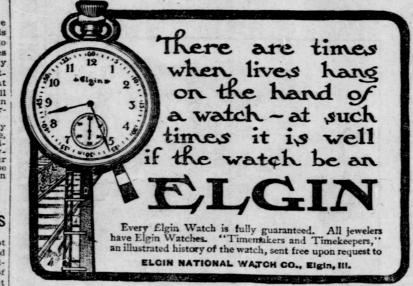

"It is a pleasure to me to observe that you assert if a case before Judge Waddill, of the United States, district court, that Alexandria county is a part of the District of Columbia, and that wires.

"In my opinion Congress had less right for rive years. Ordinarily the offer is exclusive who will be with of his part so the which on the which of the which of the little and acts of default will do his part as the act of retrocession was wholly ultra in my opinion Congress had less right to relinquish or transfer its exclusive.

"The child was failing so I thought I must do something, and reading about Cutiqura, I went to the nearest drug store and purchased a set of Cuti-cura Remedies. I used half of it and but thought the change for the better was only temporary, as it had been with all the other medicines ordered by the doctors. But by the time I had used one and a half boxes of Oint-ment, one small bottle of Resolvent, and one cake of Soap, the cure was complete and permanent, with not a sign of a sore from that day to this,over two years. TILL WOMAN WED The Palais Royal

28th Birthday

One of the establishment's oldest patrons remarked this morning: "I consider the Palais Royal a most beneficial institution, enabling many of us to live within our moderate incomes and at the same time enjoy the superior things we could not otherwise afford."

Success financially is gratifying, but sweeter yet is the assurance that one's greatest ambition is being realized. For more than a quarter century the Palais Royal policy has been to raise quality, while lowering price-to bridge the chasm between trashy goods at cheap prices and reliable goods at extravagant prices. The remark as quoted above, and the very many other expressions of like appreciation on this 28th Birthday Anniversary, are the reward long worked for and looked for. Ceaseless effort has
